

AUTHORIZATION TO MARK

In recognition of its compliance with PFS TECO's policies, the manufacturer listed below is authorized to mark their product(s) using PFS TECO's registered third-party certifier number, TPC – 3, and as ULEF Exempt from the CARB and US EPA Formaldehyde Regulations.

Composite wood products made under a ULEF exemption from CARB are exempt from the certification, quarterly surveillance testing, and quality control testing requirements of the CARB and US EPA regulations and comply with CARB Phase 2 and TSCA Title VI.

Manufacturer: JSC SVEZA - Manturovo
Manturovo, Russia

PFS TECO Mill No.: 3-565

Product: Hardwood Plywood – Veneer Core (HWPW-VC)

Product Description: Refer to the linked CARB Executive Orders

Regulations: **CARB Regulation**
Sections 93120-93120.12, California Code of Regulations,
*Airborne Toxic Control Measure to Reduce Formaldehyde
Emissions from Composite Wood Products*

Supporting Documentation:
CARB Executive Orders [N-19-097](#) and [N-19-098A](#) (HWPW-VC)

US EPA Regulation
Part 770, United States Code of Federal Regulations, title 40,
Formaldehyde Standards for Composite Wood Products

Supporting Documentation:
Section 770.18(e) of the US EPA regulation states that products
exempted by CARB will also be considered exempt from the US
EPA regulation.

AIR RESOURCES BOARD

EXECUTIVE ORDER N-19-097

Relating to CARB approval for an Exemption from Third-Party Certification for Composite Wood Product Manufacturers that use Ultra-low-emitting Formaldehyde Resins under section 93120.3, title 17, California Code of Regulations

JSC SVEZA Manturovo

WHEREAS, the California Air Resources Board (CARB) has adopted the Airborne Toxic Control Measure to Reduce Formaldehyde Emissions from Composite Wood Products (the ATCM; title 17, California Code of Regulations, sections 93120-93120.12), which establishes formaldehyde emission standards for composite wood products;

WHEREAS, section 93120.1(a)(42) of the ATCM defines ultra-low-emitting formaldehyde (ULEF) based resins to mean resins formulated such that average formaldehyde emissions are consistently below the Phase 2 emission standards in section 93120.2, for making hardwood plywood (HWPW), particleboard (PB), medium density fiberboard (MDF), or thin medium density fiberboard (tMDF);

WHEREAS, section 93120.3(d) of the ATCM allows manufacturers of HWPW, PB, MDF, and tMDF who use ULEF-based resins to apply for written approval from the Executive Officer for an exemption from the requirements of section 93120.3(b) of the ATCM;

WHEREAS, section 93120.3(d) of the ATCM allows manufacturers of HWPW, PB, MDF, and tMDF who use ULEF-based resins to submit an application for an exemption from the requirements of section 93120.3(b) of the ATCM to the Executive Officer, which includes: (A) a statement indicating which product types will be manufactured using ULEF-based resins for sale in California; (B) the chemical formulation of the candidate ULEF-based resins, including base resins, scavenger resins and additives, catalysts, and other additives as used in manufacturing; (C) the name of their CARB-approved third-party certifier (TPC); and (D) data on the emissions performance of the candidate ULEF-based resins;

WHEREAS, the data on emissions performance of the candidate ULEF-based resin required in section 93120.3(d) of the ATCM must be obtained by working with a CARB-approved TPC, and must include six months of routine quality control testing data, the correlation of the routine quality control testing data to primary or secondary testing data, and the results of two primary or secondary method tests, as required in Appendix 2 of section 93120.12 of the ATCM;

WHEREAS, section 93120.3(d)(2) of the ATCM requires that 90 percent of the six months of routine quality control testing data and the results of two primary or secondary method tests must be shown to be no higher than 0.04 parts per million (ppm), and that all data must be shown to be no higher than 0.05 ppm for HWPW and 0.06 ppm for PB, MDF, and tMDF;

WHEREAS, section 93120.3(d)(5) of the ATCM provides that the Executive Officer shall approve the application and issue an Executive Order if the evidence submitted by the applicant is sufficient to demonstrate that the applicant has met the requirements specified in sections 93120.3(d)(1) and 93120.3(d)(2) of the ATCM;

WHEREAS, OAO Fankom (or the applicant) submitted an original application that we received on May 6, 2011;

WHEREAS, the original application from OAO Fankom specifies the range in product manufacturing parameters, applicable post-press product treatments, base resin trade name(s) and base resin manufacturer(s)/supplier(s), and other ingredients added to the base resin by the applicant to manufacture ULEF hardwood plywood-veneer core (HWPW-VC) products;

WHEREAS, CARB was provided base resin/adhesive information specifying the base resin polymer type and minimum and maximum values of all major and any minor ingredients in the base resin on a percent weight of solids basis;

WHEREAS, the base resin/adhesive supplier, commercial name and resin type are set forth in Confidential Attachments A;

WHEREAS, section 93120.3(d) of the ATCM allows ULEF product manufacturers to apply for re-approval by CARB by submitting an updated application;

WHEREAS, OAO Fankom submitted the original and the updated applications for approval to CARB as follows:

Executive Order #	Received Date	Signed Date	Actions
N-11-097	05/06/2011	05/16/2011	Original
N-13-097	05/17/2019	07/27/2013	Renewal
N-13-097A	02/28/2015	04/15/2018	Amendment: request to change the company name to Joint Stock Company "SVEZA Manturovo" (JSC SVEZA Manturovo)
N-15-097	04/23/2015	06/10/2015	Renewal
N-15-097A	07/07/2015	08/19/2015	Amendment: request to correct former name
N-17-097	05/19/2017	10/04/2017	Renewal

WHEREAS, JSC SVEZA Manturovo submitted an updated application for re-approval to CARB on July 25, 2019;

WHEREAS, the updated application for renewal from JSC SVEZA Manturovo was deemed complete on July 25, 2019;

WHEREAS, the Executive Officer finds that the completed, updated application demonstrated the ULEF manufacturer's ability to continue to comply with section 93120.3(d) of the ATCM; and

WHEREAS, the Executive Officer approved JSC SVEZA Manturovo's request for re-approval, and it is appropriate that Executive Order N-17-097 be superseded by this Executive Order N-19-097.

NOW, THEREFORE, IT IS ORDERED that JSC SVEZA Manturovo is hereby approved as a ULEF manufacturer of HWPW-VC that is exempt from the requirements of section 93120.3(b) and Appendix 2 of section 93120.12 of the ATCM, provided that the following terms and conditions are met for products sold, supplied, offered for sale, or manufactured for sale in California:

1. JSC SVEZA Manturovo must use the commercial resins listed and suppliers listed in Section A of Confidential Attachment A of this Executive Order for the manufacture of ULEF HWPW-VC products.
2. As specified in Section B of Confidential Attachment A, JSC SVEZA Manturovo is legally responsible for ensuring that the base resin specifications are within the ranges specified in the original application and any subsequent amendments of this Executive Order.
3. The application rate of the base resins used for the manufacture of ULEF composite wood products by JSC SVEZA Manturovo must be within the ranges specified in Section C of Confidential Attachment A of this Executive Order.
4. Other chemical components of the base resins (such as sizing wax and release wax) used for the manufacture of ULEF HWPW-VC products by JSC SVEZA Manturovo must be within the ranges specified in Section D of Confidential Attachment A of this Executive Order.
5. The allowable operating parameters for press temperature and press time for the base resins used to manufacture the ULEF HWPW-VC products by JSC SVEZA Manturovo must be within the ranges specified in Section E of Confidential Attachment A of this Executive Order.
6. Only the composite wood products with the product names listed in Section F of Confidential Attachment A of this Executive Order are authorized under this Executive Order.

BE IT FURTHER ORDERED that this Executive Order N-19-097 supersedes Executive Order N-17-097, which was signed on October 4, 2017.

BE IT FURTHER ORDERED that JSC SVEZA Manturovo may change the resin system supplier listed in Section A of Confidential Attachment A of this Executive Order if the new resin supplier supplies the same resin type listed in Confidential Attachment A of this Executive Order, at least two primary or secondary method tests are performed on random samples selected by their CARB-approved TPC, and the Chief of the Risk Reduction Branch within the Transportation and Toxics Division is notified before JSC SVEZA Manturovo uses the resin for production.

BE IT FURTHER ORDERED that JSC SVEZA Manturovo must conduct confirmatory testing for a new resin supplier by demonstrating that the results of two primary or secondary method tests for the new resin system supplier are no higher than 0.04 ppm for the ULEF products authorized under this Executive Order.

BE IT FURTHER ORDERED that the Executive Officer may review and, for good cause, modify or revoke this Executive Order as provided in the section 93120.3(d)(5) of the ATCM. The Executive Officer shall not modify or revoke this Executive Order without affording the applicant the opportunity for a hearing in accordance with the procedures specified in title 17, California Code of Regulations, section 60055.1 et seq.

BE IT FURTHER ORDERED that this Executive Order shall have a duration of two years from the date this Executive Order is signed; the applicant may apply for re-approval as provided in section 93120.3(d)(5) of the ATCM.

BE IT FURTHER ORDERED that the applicant must maintain records in electronic or hard copy form for two years, for review by CARB upon request, as specified in section 93120.3(g) of the ATCM.

BE IT FURTHER ORDERED that the applicant must notify the Executive Officer in writing within 30 days if there is any change in their product manufacturing parameters or base resin manufacturer(s) or supplier(s) that does not comply with any of the requirements, terms or conditions specified in the ATCM or this Executive Order.

Executed at Sacramento, California this 27th day of September, 2019.

Richard Boyd, Chief
Risk Reduction Branch
Transportation and Toxics Division
